

Warning:

- 1.Keep the device away from fire and oil in order to avoid any fire or explosion.
- 2.Any severe shock or smash to the light is not recommended ;
- 3.No one except professional technicians should attempt to disassemble the light in order to avoid damaging the light.

Special Note:

- 1).Please push the button to turn on the lamp before install.
- 2).Please give bright sunlight charging over 5 hours before first time use, as the battery is very low from factory.
- 3).If it doesn't get charged for one week, the battery maybe out of power, you have to charge it under bright sunlight.
- 4).If the sun power less than the standard condition:
 - 1.illumination intensity: $1000\text{W}/\text{m}^2$,
 - 2.temperature: 25C° , it will need longer charging time or the lighting time will be less than the data we listed in the Specification, but it's normal for all solar products over the world.

Solar our Life.
